The **find it@MSU** button

This button provides access to documents when you are in a library database or ThoroSearch. Click on the icon and this pop-over window appears:

“**Full Text**” anywhere will be linked here...just click and receive the article at home.

**No full text?** If the “holdings” in **Racer Trac** pops up, the library owns the paper copy. Extended campus students can order it using **ILLiad**.

Click **ILLiad – MSU’s Interlibrary Loan System** directly from the database or ThoroSearch. Extended campus students will receive the articles electronically at their ILLiad account page (for the most part) and hard copy (books, etc) will be sent to the campus office.
